DE PROFUNDIS - the *unofficial* newsletter of LASFS

COLOPHON

De Profundis 564– April 2020. Publisher and Editor: **Marty Cantor**.

De Profundis is the unofficial newsletter of the Los Angeles Science Fantasy Society (No current permanent address) and the LASFS does not currently have a telephone number. The club's web site is: www.lasfs.org. *De Profundis* is available only from Marty Cantor for his cost of producing the zines: 75¢ in person, \$1.25 by domestic mail. Out of country rates quoted upon request but it is recommended that copies be downloaded - or at least read - from the *DE PROF* web site.

Westercon is a service mark of the Los Angeles Science Fantasy Society, Incorporated (LASFS, Inc.), Worldcon and NASFIC are service marks of the World Science Fiction Society (WSFS).

I want any news of interest to LASFS members (no poetry or fiction). Send items to the LASFS address *c/o De Profundis* or hand them to me at wherever LASFS meetings are being held. The editor, Marty Cantor, can be reached at his address: [martyhoohah \(at\) sbglobal \(dot\) net](mailto:martyhoohah@sbglobal.net) or at club meetings on Thursday evenings. Deadlines are a bit fluid, but mid-month Thursdays are probably it.

If anybody who receives *DE PROF* via the mail happens to move without letting me know the new address; well, I have more important things to do than to be chasing down addresses so I will stop sending zines to you even if you have given me money to do so.

I will accept no advertising in *De Profundis* but I will always try to find room to announce upcoming events of interest to LASFS members.

Even though *De Profundis* is no longer the official newsletter of the LASFS, I intend to run the zine as if it still belonged to the club. Mostly. Due to space limitations, priority is always given to content mandated in the LASFS by-laws and by any applicable traditions. Also, after that stuff, by what the editor wants to do.

Written in Publisher 2000 on a custom-modified Intel quad-core, DELL Workstation (using the Windows 7 Professional 64 bit operating system) and printed on an HP 4700dn colour laser printer.

Statements herein are those of the speaker/writer and do not necessarily reflect the opinions of the club. *Interjections in italics are solely the responsibility of the smartass, er, editor. Any resemblances 'twixt smartassery and responsibility are purely coincidental.*

Addendum: At the LASFS' Board of Directors meeting of February 8, 2009, the Directors accepted the proposal by Marty Cantor to take over *De Profundis* as his own fanzine, or as one of them, and he will be assuming the entire cost of production. Marty Cantor has promised to use his 5+ years experience of running *De Prof* as a guide to pubbing the zine as the *unofficial* newsletter of the society. The proposal was put to the Board because the Board had previously indicated that costs were dictating the discontinuance of the zine. *De Prof* is available on paper solely at cost: currently 75¢. Mailed copies, domestically, will be \$1.25. Subscriptions will be accepted; however, as prices are set at approximate cost of production, there will be no discounts for long-term subs.

Marty Cantor, 11825 Gilmore Street #105, North Hollywood, CA 91606, USA. (818) 761-9401. [martyhoohah \(at\) sbglobal \(dot\) net](mailto:martyhoohah@sbglobal.net). April, 2020. Hoo Hah Publication Number 2284. Thanks go to Elayne Pelz, Charlie Jackson, Karl Lembke, Kristen Gorlitz and Nick Smith, Lee and Barry Gold, and any others who are helping me in providing news to LASFS members

Announcements

Robo Toy fest (RTF) in Pasadena June 9th 10am-5pm

The Hitch-Hiker's Guide to the Galaxy June 6-9

Whedoncon, June 7-9th

Nick: This Saturday, June 1st, at 7pm, 2400 Burbank (near here) there is a special silent movie screening of - The Mark of Zorro - with a full orchestra doing the music.

Chesley Bonestell: A Brush with the Future is playing at the Laemmle on July 15-16. George highly recommends this movie.

<https://www.laemmle.com/films/45869>.

William Shatner is hosting a horse show on June 1st. (*I assume that it will be more interesting than a hoarse show.* -ed.)

Reviews

Scott Beckstead - has been watching Philip K Dick's *Electric Dreams*. They remind him of the old *Twilight Zone* except they are in color with better special effects. Highly recommends. They are on Amazon Prime.

George: Charlie was talking up *Lucifer*, (*The Devil, you say.* -ed.) so he checked it out on Netflix. The writing and characterization is amazing. This is really well done fantasy.

Nick: Science Fiction book sale - This last Sunday and Monday, *Half Off Books* in Pasadena had a remarkable sale. You had to be there to understand their pricing. They changed the layout of the store for the sale as well. They had a huge amount of sci-fi and fantasy related stuff.

There was then discussion about sales and acquisitions at such sales.

Barbara- read *The Only Woman in the Room* by Marie Benedict, supposedly it is the biography of Hedy Lamarr. Only the last 20% dealt with the science so Barbara recommends reading the Wikipedia article.

There was then discussion about technologies created by Hedy Lamarr.

John DeChancie: *Tolkien* (the movie), John liked it. It was very good. It does not deal with the inklings. It deals with his tour in the army in WWI.

Moment of Science

Nick: *The Journal of Agriculture and Food Chemistry* - academic study on the scent of chocolate and what it is composed of. The reason why different chocolates smell

different is that chocolate consists of 20-30 different chemicals. You shouldn't smell some of them separately. But blended with the other stuff you get the smell of chocolate.

NASA has made one of their long time patents public - they weren't able to get it to work and are hoping someone else can, apparatus attached to the feet for locomotive propulsion. (*It might work if they do not connect it to box cars.* - ed.)

Tom: Astronomers have discovered a hot Neptune. A Neptune extremely close to its star. The orbital period is 1.2 days. They don't know why there is a gas planet so close to its parent sun. It was also the smallest exoplanet discovered using a ground telescope. (*And just how did they grind the telescope?* - ed.)

Some scientists found a meteorite that contained non-terrestrial DNA.

Scott: It appears that Neanderthals were not able to speak, at least not as well as we are. They did not have a resonating chamber.

Time Bound Announcements

Mike Thorsen: If you are fan of British Food, *Buchanan Arms* (next to *Piccadilly Circus*) is a good place to go. *Buchanan Arms* and *Piccadilly* are closing tomorrow. (*So I guess you will then have to go to Buchanan Legs.* - ed.)

Francis Hamit: Leigh is still selling her comic book collection.

Kristen: Launching new *Kickstarter*, next Tuesday on June 4th.

Old Business

None.

New Business

None.

Miscellaneous

Debra Levin: Asks if someone can interview me.

Francis: On Friday had a meeting about *All American*, his new screenplay that he wrote this week

Marty: Whenever Marty puts out *De Profundis*, it mostly delivers in pdf, and is asking for emails for people who the emails are not reaching.

George: Speed at which a screenplay has been done. Roger Corman may have broken that record with *The Terror*.

Please put the chairs away.

We moved to adjourn to chocolate at 9:02 pm.

E-MAILS OF COMMENT

DAVE COX: A bit off topic, but I wanted to tell you how comforting it is to see your name in my email every now and then. It brings back happy memories of Petards at my parents' house (and then that leads to memories of my dad's beer can pyramid falling down!).

I hope you are well during this time (and always, too, of course!).

Take care,

Voices from DE PROF recipients are always welcome here. This tells me that at least some of you are reading the zine and that means that producing it is not time and effort wasted. During the current pandemic when LASFS can no longer meet in person, DE PROF is a major method of letting society members know that the club still exists.

• - Marty Cantor

BJO TRIMBLE: Good issue. Thanks for keeping us on the mailing list.

Now, more than ever, for those on the mailing list who were so important for LASFS in our past, keeping all of you on the mailing list so that you know that we are still here even though circumstances have forced us to not meet in person for the time being, it is important to let you all know that we are still here and that we care for the members who cannot make it to the meet-

ings we currently cannot have.

John and I are doing pretty well for a couple of octogenarians. I said that to someone, and a kid asked what an octogenarian was. I told him it was a senior citizen with 8 arms. I got That Look from him as he turned away. Obviously not fan material. But I digress... we haven't fallen down or otherwise ended up in ER lately. The year is young yet.

Well, this octogenarian (who turns 85 next week as this is printed and/or e-mailed) does use a cane at times and has not yet fallen—this year. My digression here is that I keep my so-called mind sharp by playing the newer Euro-games which are strategic and complicated. Well, I did when I was able to run my Board gaming Meetup before the attack of the Coronavirus. (Maybe we could have continued gaming if we had been attacked by the Dos Equis virus)

I am sort of sad that the Forry anthology passed me over. I am not a member of any writing group, but I do write and have been paid for it. Oh well.....

Also wanted to ask if De Prof only used Rotsler art as a policy, or if others can play through?

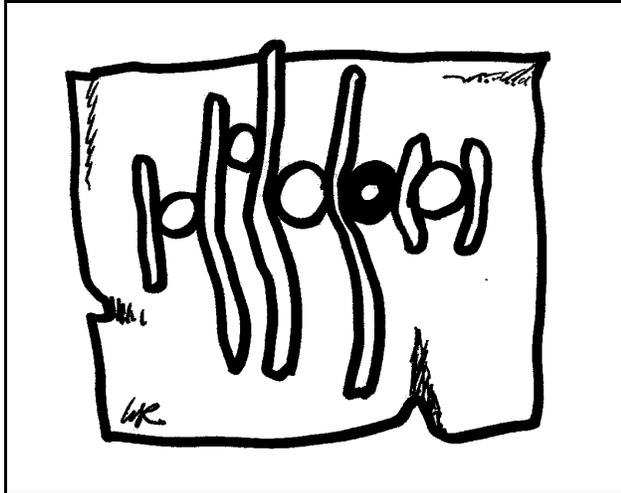

During both of my stints running DE PROF I have had a policy of just using LASFS artists; and, as I probably had several thousand Rotsler illos at one time - I got them from Bill Warren who helped clean out Rotsler's house when Rotsler passed away 20+ years ago - I have spent these past decades both using these illos and also giving them away to other faneds. I once dumped two very full envelopes of these illos on a table at a Las Vegas Corflu Banquet. As expected, this ended the banquet as there was a mad dash from the faneds in attendance and the table was soon bare.

I have also used Rotsler illos on the covers of APA-L and LASFAPA.

However, if you would like to contribute illos to DE PROF I would be most happy to use them here. Yes, I really would like to turn DE PROF over to somebody else one of these days as I really do want to cut down on my obligations as I have slowed down a bit in recent years, but I really intend to make certain that this newsletter will continue to keep the society members in contact with the club whilst the club is not meeting in person.
